Electronic Resource Management

ABOUT EASYLIB SOFTWARE PRIVATE LIMITED

Easylib was started by three software professionals in late 1998. These three working at Infosys, General Electric, and Siemens thought they should work on developing innovative software products and platforms and started this company. Since then, the company has kept the focus as development of indigenous, innovative, user-friendly products for the libraries and educational institutions. Here is a brief history.

HISTORY OF EASYLIB LIBRARY AUTOMATION SOFTWARE

- 1998 – 2004: Early stage, mostly services business and early launch of Easylib product. Reached 60 clients for Easylib.
- 2004 – 2016: Gradual growth stages, expanded the product footprint to over 500 clients in Karnataka, Tamilnadu, Telangana, Maharashtra, Rajasthan, Sikkim, Jammu Kashmir, Dubai, UK, Nigeria and West Indies. As on 2019 January, company has over 450 active clients.
- 2016 Onwards: Re-innovation phase. Expanded the team to bring in more innovation to the product. Software completely migrated from Client Server to Web Architecture. Various new modules added. Cloud hosting launched. Added support for RFID. Pre-built SMS and Email interface. Easylib for Universities Launched. Launched Easylib.Net union catalogue. Initiated various user behavior analysis projects in library space.
- 2019 Onwards: Integration with Vidyanidhi Platform to offer an integrated solution for the educational institutes.

Easylib strives to bring (a) State of the art library and information system (b) Quality and Reliability needed to run mission critical applications (c) Continually innovative in the space to help make library primary the most happening place in a campus.
